

Dental Concerns!

A Concerned Professional...

At Aesthetic Dental of Jupiter, Dr. Dwork specializes in solving complex dental problems. He performs "Smile Make-overs" for the young and old alike.

"Our practice performs complex reconstructive dentistry involving bite problems, cosmetic dentures, implants and multiple crowns. One of the most exciting new technologies are the new immediate, same day implants," he says. "We're giving teeth back to people in one day, what could be more phenomenal!"

Dr. Dwork teaches and lectures other dentists on how to "perfect" their patients and is an instructor for the prestigious Rosenthal Institute for Aesthetic Dentistry.
